From 1998 to 2007, Colorado's average annual employment <u>increased</u> by 12.0%, yet the number of lost-time claims filed <u>decreased</u> by 9.4%.

INTRODUCTION

The Division of Workers' Compensation prepared this report to provide information on work-related injuries, occupational illnesses and injuries resulting in fatalities that occurred in Colorado during calendar year 2007. It will help to answer some of the most frequently asked questions about work-related injuries.

Lost-time claims², claims with a permanent disability rating, fatal claims, and denied claims are included.³ A lost-time claim is one in which the worker misses more than three days or three shifts of work because of the work-related injury or illness. The Division generally tracks only claims involving lost-time.

The information in this report is derived from documents filed by the employer, worker or the dependents of a deceased worker for an injury, illness or fatality that *occurred* during calendar year 2007. This does not mean that the claim was filed in 2007. There is a lag in the reporting of some claims, and generally, 80% of claims are filed in the year in which the injury, illness, or fatality occurs. The remaining 20% of the claims are filed over the next several years. Most of these are filed in the year immediately following the year of injury. Of the 30,293 lost-time claims included in this report, approximately 85% were filed in 2007. The remaining 15% were filed through January 29, 2009, the closing date of the database for this report.

The characteristics of the injury or illness are derived from the first report of injury filed by the employer or worker, and in most cases it is not based on a medical diagnosis.

The filing of a claim is the first step in a process that generally results in an admission or denial by the insurance carrier or self-insured employer that the worker's injury, illness or fatality is work-related. ^{5,6} If the claim is admitted, the carrier or the self-insured employer pays medical care. The worker also receives compensation benefits to partially replace the wages that would have otherwise been lost because of the disabling injury or illness. In other cases, the claim may be denied by the insurer or self-insured employer because the injury, illness or fatality is not work-related. Claims involving a dispute over whether or not the injury, illness or fatality is work-related may end up in a hearing.

This year's report continues the presentation of tables with longitudinal data. Trends in the number of claims received and lost-time claims filed for injuries and fatalities, the number and rate of injuries by part of body, nature of injury, and cause of injury, and settlements, are available for 1998-2007.

Information about the development and use of the North American Industry Classification System (NAICS) can be found at the website of the U.S. Census Bureau, http://www.census.gov/epcd/www/naics.html.

¹ The only exception to this statement is the information on hearings reported in Tables 29 and 30 and the information on settlements reported in Tables 31 and 32. The hearing data are based on applications received, hearings held, or orders issued in 2007, regardless of the date of injury. Settlement information is based on claims that were settled during calendar year 2007. However, the claim itself may have initially been filed in a prior year.

² The Division receives some reports on claims that involve only medical benefits. In such claims, the worker receives medical care but does not lose more than three days or three shifts of work. Because the "med-only" claims that are filed with the Division are neither representative, nor a complete count of all claims of this type, information on indisputably "med-only" claims is, as it has been in previous years, excluded from this report.

³ Information on the reason for a denial is no longer collected with implementation of Electronic Data Interchange (EDI). Therefore, some tables from prior years with denial data do not appear in this report.

⁴ In the majority of fatalities, the worker dies the same day as the date of injury. This report is strictly based on the date of injury, so death due to an injury may not occur in the reporting year. If the death occurs after the date of download, it will not be included in this report.

⁵ The statistics reported in sections I through VII, Tables 21-26 and Table 28 refer to claims *filed*, without regard to whether the claims were admitted or denied.

⁶ The source of the codes for part of body, nature of injury, and cause of injury, in Tables 3-8, 11, 12, 21, and 22, is the National Council on Compensation Insurance, Inc., 901 Peninsula Corporate Circle, Boca Raton, FL 33487.

2005	35,316	29,282
2006	37,011	30,478
2007	36,663	30,293

Notes:

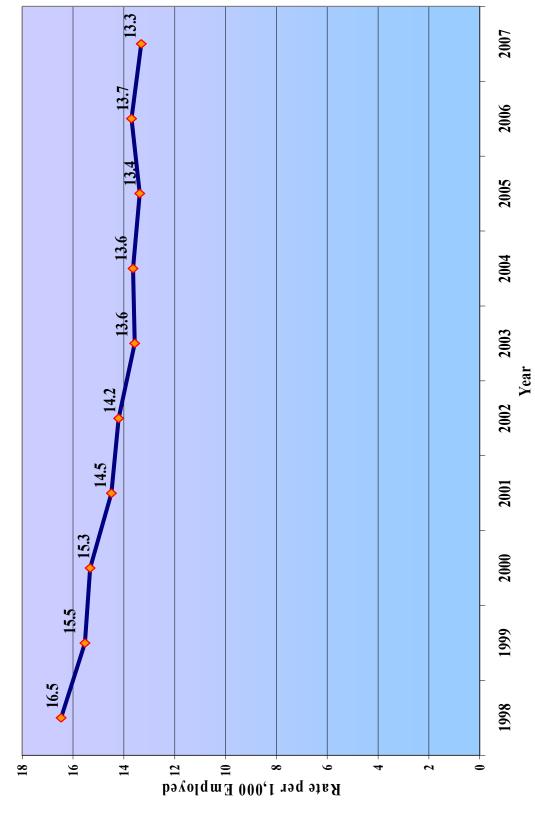

¹ Source: Report 874, New Claims Received. These are claims received by the Division of Workers' Compensation during the calendar year, regardless of the date/year of injury of the claim. It includes lost-time and medical-only claims, and duplicate First Reports for the same injury.

² Source: Annual download of DOWC data. These claims have a date of injury in the calendar year, regardless of their received date. In 1991, changes in the database made it possible to distinguish between "lost-time" and "medical-only" claims. Therefore, these claims are lost-time claims only. A lost-time claim is one in which the worker misses more than three shifts or three days of work because of work-related injury or illness. Duplicate injury reports have also been eliminated.

2007 Figure 1. Claims Received and Lost-Time Claims Filed: 1998-2007 → Number of Claims → Number of Lost-Time Calendar Year 2001 1999 1998 40,000 35,000 30,000 25,000 10,000 5,000 0 Number of Claims

All Other Specific Injuries, NOC ²	2,846	9.4
Other ³	1,918	6.3
Missing	11	0.0
Totals	30,293	100%

Notes:

- 1 Excludes Mental Stress, Mental Disorder and Carpal Tunnel Syndrome claims reported here in separate
- 2 Not Otherwise Classified.
- 3 Includes those categories in Table 6, with counts less than 1% of total, not already counted in other categories.

 Mental Stress/Mental Disorder and Carpal Tunnel Syndrome, both less than 1% of the total, are reported separately because of the Legislature's past interest in these injuries.

Strains and sprains are approximately 46% of the lost-time claims filed.

Table 7

Rank-Order Distribution of Lost-Time Claims by Cause of Injury

Cause of Injury	Count	Percent
Strain or Injury By	11,409	37.7
Fall, Slip or Trip	7,718	25.5
Struck or Injured By	2,893	9.6
Cut, Puncture, Scrape, Injured By	1,380	4.6
Caught In, Under or Between	1,129	3.7
Motor Vehicle	1,040	3.4
Striking Against or Stepping On	945	3.1
Burn or Scald - Heat or Cold Exposure	675	2.2
Rubbed or Abraded By	114	0.4
Miscellaneous Causes 1	2,990	9.9
Totals	30,293	100%

Notes

Accidents involving a motor vehicle, whether driving in one (3.4%), or being struck by one (0.6%), are the cause of injury in 4.0% of the lost-time claims.

¹ See Table 8 for details of this category.

Notes:

Year

Source: Tables 1 & 7; and, Colorado Department of Labor and Employment, Division of Workers' Compensation, Work-Related Injuries in Colorado 2003-2006, Tables 1 & 7; and, Colorado Department of Labor and Employment, Division of Workers' Compensation, Work-Related Injuries in Colorado 1998-2002, Tables 1 & 6.

1 This figure illustrates the five NCCI categories for Cause of Injury with the highest rates of injuries in 2007, and their rates over the past 10 years. For data on the other NCCI categories not included here, see Table 7. Lifting, the most frequent cause of strains or injuries by strain, contributes to the greatest number of lost-time claims filed.

The <u>percentage</u> of claims caused by all types of strains, or injury by strains, declined by 1.9% from 1998-2007, while the <u>rate</u> of claims for strains, or injury by strains, declined by 1.5 per 1000 employed.

Notes:

- 1 Source: Office of Management and Budget, North American Industry Classification System, United States, 2002.
- 2 Fatal claims are included in count of lost-time claims.
- 3 Source: Colorado Department of Labor and Employment, Labor Market Information, QCEW, Colorado Employment and Wages: Annual Average 2007. Statewide total on QCEW differs due to distribution of government employees throughout sectors. An employed person is 16 years or over in the civilian noninstitutional population, who, during the reference week, (a) did any work at all; and, (b) who were not working but were temporarily absent.
- 4 "Other" includes nonclassified establishments, invalid NAICS codes and missing data.
- 5 Totals at the industry/sector level for Colorado include nondisclosable data suppressed within the detailed tables in Table 10. However, these cannot be used in Table 10 for the suppressed data would be revealed.

The Transportation and Warehousing NAICS sector has the highest <u>rate</u> of lost-time claims per 1,000 employed.

Notes:

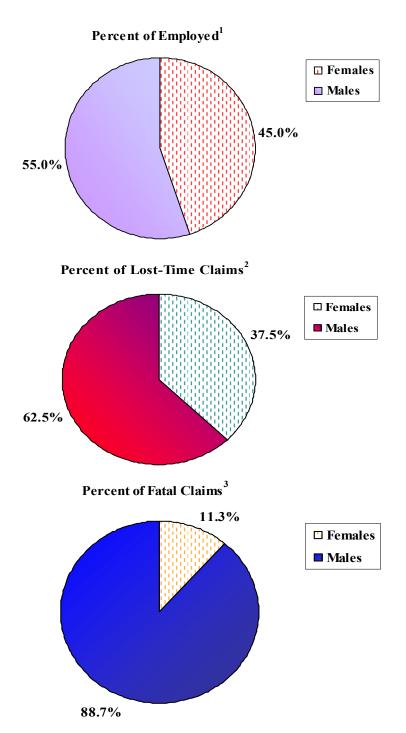

- 2 Source: Colorado Department of Labor and Employment, Labor Market Information, QCEW, Colorado Employment and Wages: Annual Averages 2007. An employed person is 16 years or over in the civilian noninstitutional population, who, during the reference week, (a) did any work at all, and, (b) who was not working but temporarily absent.
- 3 Subtotals for individual sectors do not equal the sector totals in Table 9 due to a lack of claims filed in some subsectors, and disclosure suppression. In cooperation with the CDLE Labor Market Information unit, the DOWC withholds the publication of data necessary to protect the identity and data of cooperating employers and workers. There are some cases where detailed data could consist of too few employers to insure confidentiality. These data are withheld or "suppressed" in DOWC publications.

The NAICS sub-sector, Leather and Allied Product Manufacturing, has the highest <u>rate</u> of claims at 74.0 per 1,000 employed.

^{*} Value is less than .05%.

Totals ⁷	11,367	11,367 37.5%	n/a	18,921	62.5%	n/a	30,288	100%	n/a

- 1 Rate is the number of injuries calculated per 1000 females employed in Colorado (the population-at-risk).
 - 2 Rate is the number of injuries calculated per 1000 males employed in Colorado (the population-at-risk).
- 3 Rate ratio is the rate for males/rate for females. A rate ratio greater than 1 means males had a higher rate than females; a ratio less than 1 means males had a lower rate than females. (CI = 95% Confidence Interval)
- 4 Excludes mental stress, mental disorder and carpal tunnel claims reported here in their own categories.
 - 5 Not Otherwise Classified.
- 6 "Other" includes those categories in Table 6, with counts less than 1% of total, not already counted in other categories here. Even though
- "Mental Stress/Mental Disorder" is less than 1% of the total, it is reported separately because of the Legislature's past interest in these injuries.
- 7 Total number of lost-time claims for 2007 is 30,293; five (5) claims were missing data for gender.

Section VI Gender

Females file claims at a higher <u>rate</u> than males for injuries to the wrist, multiple body parts, and multiple upper extremities.

Table 17 Distribution of Lost-Time Claims by Claim Status

Date of Injury-Calendar Year 2007 State of Colorado

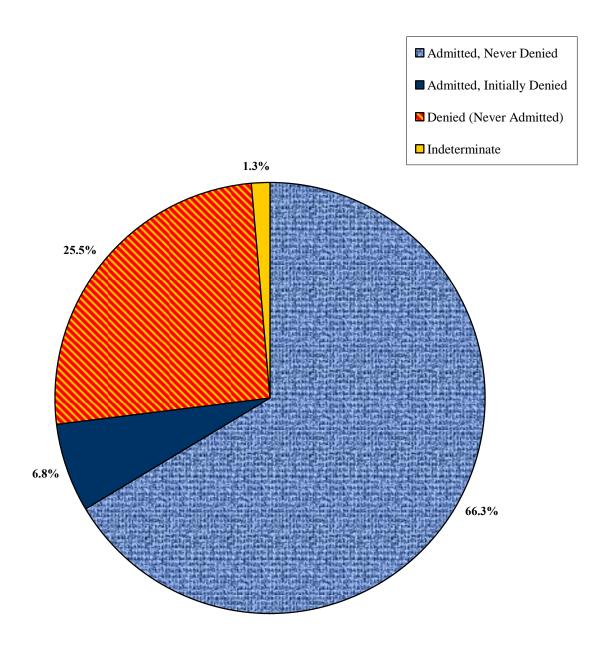

Claim Status ^{1,2}	Count	Percent
Admitted		
Never Denied	20,092	66.3
Initially Denied	2,074	6.8
Denied (Never Admitted)	7,727	25.5
Indeterminate ³	400	1.3
Totals	30,293	100%

Notes:

- 1 The status of the claim is based on documents filed with the Division of Workers' Compensation, as of January 29, 2009. An "Admitted" claim is one for which a document with some indicator of liability has been filed, including a Fatal Admission or a Final Pay Notice. A "Denied" claim is one for which a "Notice of Contest" has been filed, and no evidenceof liability is found.
- 2 Some of the cases have had a change of claim status during the course of the claims, but the majority were consistently one status.
- 3 An "Indeterminate" claim is one for which no evidence of an admission nor a denial has been filed. Of the "Indeterminate" claims, 27 (6.8%) have been resolved with a settlement, and none had a hearing.

Approximately one-quarter (25.5%) of lost-time claims are denied.

Distribution of Fatal Claims by Worker Characteristic

Data of Fatal Injury-Calendar Year 2007 State of Colorado

Worker Characteristic ¹	Count	Percent
TOTAL FATALS	124	100%
GENDER ²		
Male	110	89.4
Female	14	11.4
AGE		
Under 18 Yrs.	*	*
18-29 Yrs.	23	18.7
30-39 Yrs.	19	15.4
40-49 Yrs.	26	21.1
50-59 Yrs.	29	23.6
60-65 Yrs.	8	6.5
Over 65 Yrs.	8	6.5
Missing ²	11	8.9
MARITAL STATUS		
Married/Separated	66	53.7
Divorced	20	16.3
Widowed	3	2.4
Never Married	23	18.7
Missing ²	12	9.8
RACE & HISPANIC-ORIGIN		
White, Non-Hispanic	82	66.7
White, Hispanic	26	21.1
Subtotal	108	87.8
Black ³	3	2.4
Missing ²	13	10.6

- * Counts less than three (3) are suppressed to protect confidentiality of death records.
- 1 Information on specific characteristics in this table was primarily derived from death certificates, and was reported by a relative, or, in their absence, the coroner or physician who completed the death certificate; some missing (age, gender) data was filled from the First Report of Injury.
- 2 Missing categories can include eleven (11) cases that had no death certificate, and missing marital or race data on two death certificates. In some cases, missing data was filled by data from the First Report of Injury.
- 3 There were no Blacks also identified as Hispanic.

Table 25 Distribution of Fatal Claims by Age and Gender

Date of Fatal Injury-Calendar Year 2007 State of Colorado

	Gender ¹					
	Fer	male	M	ale		
Age Group ^{1,2}	Count	Percent	Count	Percent		
Under 18 Yrs.	*	*	*	*		
18-29 Yrs.	4	3.2	19	15.3		
30-39 Yrs.	4	3.2	15	12.1		
40-49 Yrs.	3	2.4	23	18.5		
50-59 Yrs.	*	*	28	22.6		
60-65 Yrs.	*	*	7	5.6		
Over 65 Yrs.	*	*	8	6.5		
Missing ³	*	*	10	8.1		
Totals	14	11.3	110	88.7		

Notes:

- * Counts less than three (3) are suppressed to protect confidentiality of death records.
- 1 The information in this table is primarily derived from death certificates when available, and is what was reported by a relative, or, in their absence, the coroner or physician who completed the death certificate.
- 2 Widths of age group categories vary.
- 3 Eleven (11) cases had no death certificate; some missing data was filled from the First Report of Injury.

In 2007, 7 fatal claims, just 5.6% of the fatalities, were filed due to a robbery or criminal assault.

Table 26

Distribution of Fatal Claims by Educational Level

Date of Fatal Injury-Calendar Year 2007 State of Colorado

Educational Level ¹	Count	Percent
Some High School or Less	24	19.4
High School Graduate	40	32.3
Some College	20	16.1
College Graduate	17	13.7
Graduate Work/Degree	8	6.5
Missing ²	15	12.1
Total	124	100%

- 1 The information in this table is primarily derived from death certificates when available, and is what was reported by a relative or, in their absence, the coroner or physician who completed the death certificate.
- 2 Eleven (11) cases had no death certificate, and four (4) of the death certificates did not report education. Some of the data was taken from the First Report of Injury.

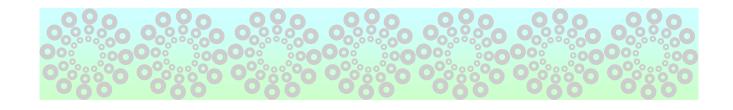

Table 27 Distribution of Fatal Claims by Gender and Claim Status

Date of Fatal Injury-Calendar Year 2007 State of Colorado

Claim Status¹

	Adm	ission ²	Denia	l Only ³	To	tals ⁴
Gender ⁵	Count	Percent	Count	Percent	Count	Percent
Female	9	69.2	4	30.8	13	100.0
Male	60	58.3	43	41.7	103	100.0
Totals	69	n/a	47	n/a	116	n/a
Percentage Ov	erall	59.5%		40.5%		100%

- 1 The status of the claim is based on which documents have been filed with the Division of Workers' Compensation, as of July 31, 2008. An "Admission" is a claim for which a document with some indicator of liability has been filed, including a Fatal Admission or Final Pay Notice. A "Denial" claim is one for which a "Notice of Contest" has been filed, but no document with evidence of liability has been filed.
- 2 "Admission" counts include those claims first denied then later admitted.
- 3 Of the forty-seven (47) fatal claims that were "Denial" only, four (4) had a settlement, and there were no hearings.
- 4 There are eight (8) "Indeterminate" fatal claims not included in the count; there was one settlement and no hearings on these claims.
- 5 This information is taken from death certificates. Eleven (11) cases had no death certificate; gender was taken from the First Report of Injury.

Table 28

Rank-Order Distribution of Fatal Claims by Occupational Classification

Date of Fatal Injury-Calendar Year 2007 State of Colorado

Occupational Classification 1,2,3	Count	Percent
Construction & Extraction	34	27.4
Transportation & Material Moving	33	26.6
Service	16	12.9
Professional & Related Occupations	15	12.1
Management, Business & Financial Operations	9	7.3
Farming, Fishing & Forestry	4	3.2
Office & Administrative Support	4	3.2
Installation, Maintenance & Repair	3	2.4
Production	3	2.4
Sales & Related Occupations	3	2.4
Totals	124	100%

Notes

- 1 The information in this table is derived from death certificates when available, and is what was reported by a relative, or, in their absence, the coroner or physician who completed the death certificate. Eleven (11) cases had no death certificate; some missing data was provided by the First Report of Injury.
- 2 The death certificate asks for the decedent's "usual occupation", or the "kind of work done during most of working life." This may not be the decedent's occupation at time of death.
- 3 Occupational classifications are based on the 2002 Occupational Classification System developed by the U.S. Bureau of Census.

Construction and Extraction occupations have the highest <u>number</u> of fatal claims filed.

Table 29

Distribution of Applications for Hearing, and Merit Hearings Held, by Location

Date of Application or Hearing-Calendar Year 2007 State of Colorado

Location	Applications Received ¹	Merit Hearings Held ^{2,3}	
Alamosa	19	1	
Colorado Springs	1,578	196	
Durango	111	35

Totals ³	1,648	\$25,024,510	4,899	\$180,990,068	6,547	\$206,014,578	

Notes:

- 1 Source: Stipulation Activity Report (#862).
- 2 Settlement information is based on claims that were settled during calendar year 2007. The claim itself may have been initially filed in 2007 or a prior calendar year.
- 3 Totals for settlement amounts may not equal sum of monthly settlement amounts due to rounding.

On average, claimants represented by attorneys receive larger settlements. This difference is due to a number of factors, including the fact that an attorney more likely represents claimants with more serious injuries.

Table 32
Settlements, by Type of Representation, Average Number of Cases per Month and Average Amount per Case: 1998-2007

² Based on only those settlements that occurred in the calendar year. The original filing of the claim could have taken place in the same year or prior years.

Source:

1 Rate of Lost-Time Claims Filed is derived from Division of Workers' Compensation counts of lost-time claims filed and from labor force data of the Colorado Department of Labor and Employment, Labor Market Information, QCEW, Colorado Employment and Wages: Annual Average 1998-2007. Rate is calculated as number of lost-time claims filed divided by the

2 Average Annual Unemployment Rate is from U.S. Dept. of Labor Statistics, Bureau of Labor Statistics, "Local Area Unemployment Statistics: Colorado." It represents the number of unemployed (persons 16 yrs. and older who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment sometime during the 4-week period ending with the reference week) as a percentage of the labor force.
